

Building **HOMES, BUSINESSES,** and **RELATIONSHIPS**

Dakan Enterprises is a general construction company offering design and build services for residential and commercial clients throughout Northeast Pennsylvania.

Dakan is proud of each and every project we've built, remodeled, or transformed over the past 20 years, and we're just as proud of the many relationships we've built along the way.

For us, it's about pride in helping to build the future and preserve the past of our region through custom home design, construction management, and historic renovations.

Kenny Shino founded Dakan Enterprises in 1993. Working with a family of carpenters, craftsmen, problem solvers, hard-workers, and all-around nice guys, Kenny's created a company that's earned its reputation for quality work.

Discover what Dakan can do for you

CUSTOM HOME DESIGN & CONSTRUCTION

From the most expansive to the most detailed, Dakan Enterprises' Design and Build Team can help you build a space that reflects your needs, tastes, and budget.

GENERAL CONSTRUCTION & CONSTRUCTION MANAGEMENT

From blueprints to paint swatches, foundations to shingles, the first meeting to the final inspection, we offer comprehensive design/build, general contracting, and construction management services throughout Northeast Pennsylvania.

REMODELS, RENOVATIONS, & ADDITIONS

Making new spaces feel classic and old spaces feel contemporary; we take pride in transforming commercial and residential properties to create fully formed and fully integrated spaces that meet the unique needs of their owners.

Building homes, business, and destinations

SINCE 1993

Family homes, doctor's offices, distribution centers, and destination resorts, it's incredible to think of all the successful projects and relationships we've built over the years. And it's exciting to think of what we'll do next.
